At step 13, we're proud to be 52% self-sufficient without taking federal, state, or city funding. We're trying to raise that number. But until we do, we rely on peoples kindness to fill out our budget. We need money to offer services to the homeless men we take in off the street. We need money to expand our businesses. And we need money to cover our everyday expenses like gas and electric bills. [click here to donate](#)
